

DROWNED IN RIVER WHEN BOAT UPSET

Robert Gilkinson and Charles May Lose Their Lives in Saskatchewan

GILKINSON WAS TO BE MARRIED NEXT WEEK

Andrew Mitchell, Also in Boat, Able to Swim and Escapes Death

To meet death by drowning but a few days before he was to have been married was the fate that overtook Robert Gilkinson, aged 25, of the Mitchell Gravel Co. yesterday morning, when, with a companion, Charles May, aged 26, of the same firm, he was thrown into the river by the capsizing of their boat, both being swept away to their death before help could reach them.

The two men, with Andrew Mitchell, head of the Mitchell Gravel Company, were in a row boat about half past ten in the morning. They were passing near a big gravel dredge, opposite Galtzoff's. Fate when suddenly the big chain attached to the scoop which lifts the gravel from the river broke and captured the boat, which was about one hundred feet from the shore at the time.

The three occupants were thrown into the river, and as two of them were unable to swim their struggle for life was brief. The third, Andrew Mitchell, managed to cover about a hundred yards and was at length picked up by some men on the shore. He had a hard struggle for life. The boat drifted bottom upwards for four hundred yards and then ran into the shore. Neither of the bodies has been recovered.

Robert Gilkinson, whose home is in Ontario, near Hamilton, had been coming at the Castle Hotel for some time. It was stated yesterday morning that he was to have been married very shortly, and that his fiancée arrived in the city only a day or two ago. He has a sister living in North Battleford.

The other unfortunate man, Charles May, had only recently come from the old country, where his family lives.

TOWN OF WESTLOCK HOLDS CELEBRATION

New E. D. & B. C. Railway Town, Northwest of this City Has Successful Celebration Attended by Over 800 People—Rapid Development of Town and District.

On Tuesday the citizens of Westlock held their first celebration, which was attended by over 800 people from the district. In the afternoon very successful sports were held in the park, and in the evening a dance was held at the Victoria Hall, which had just been completed and which was beautifully decorated and lighted for the occasion. The place was packed and the dancing was kept up until four o'clock in the morning. Among the expert dancing couples who showed their skill and ability were: Mr. Rogers, Mr. and Mrs. L. J. Smith, Mr. Geo. McTavish, Mr. and Mrs. Smith, Miss Wood, Mrs. Wm. Westlake, Mrs. Dwyer, Mr. and Mrs. Dwyer, Clyde Hall, John Bell, Charles Kinross and many others. Mr. Kinross officiated in the entertainment of the guests.

Among those present from a distance were: Mr. Hamilton, Pithers; Mr. Wm. Clark, Pembina; Mr. Angus Galtzoff, Winnipeg; Mr. A. Galtzoff, health, chief engineer of the Edmonton, Dunsmuir & B. C. Railway; Mr. J. J. Pringle, Denver; Mr. John Barker, manager of the Duke of Athol's farm, near Westlock; Mr. John W. Currie, Edmonton. The profits realized by the athletic club, under whose auspices the celebration was held, amounted to over \$400.

Work of installing telephones to supply the wants of the citizens is now under way. Over twenty-two private phones have been applied for in the town and there are besides about seventy-five residents of the district looking forward to having telephones in their homes before long.

Westlock expects to have its first recreational fair in August. A board of trade building is to be erected, wherein it is intended to have on regular exhibit samples of local grown farm produce and samples of minerals found in the vicinity. During the past month a large supply of asphalt has been found at a depth of only 21 feet and samples are now in the provincial laboratory for testing. Preparations for the paving of the streets are being made and as an asphalt expert has declared the material to be of quality, the streets will in all probability be paved with local material.

A new Church of England is under construction, of which Rev. A. C. French will be pastor. A Methodist church is also being erected and has been dedicated. Mr. Boyle will be in charge. It is also stated that growing has been bought for a church on an acre 400 ft. in length.

Passenger trains will be expected to be in operation within two months. Arrangements are being made to relieve the incoming of Westlock's first passenger train.

News of the South Side

SOUTH SIDE OFFICE: 14 WHITE AVENUE EAST, TELEPHONE 3112

Miss Louise Mitchell, one of the visiting press women, was at one time a resident of Northbrook. She married her newspaper career on the Plaindealer 13 years ago. At present she has charge of the women's page of the St. Thomas Times. Miss Mitchell was returning acquaintances on the south side of the river during her short stay.

In connection with the recent list of graduates from the University of Toronto the fourth year course in medicine is the name of Mr. D. R. Lethbridge, B.A., who is one of the most graduates of his class. Mr. Lethbridge is the eldest son of Rev. and Mrs. Lethbridge of this city and is engaged in one of the Toronto city hospitals for the summer.

SQUADRON HORSE PARADE.
The horses for D Squadron, 15th Alberta Dragoons, will parade at the armory at 2 p.m. on Monday, June 10th, for inspection by the veterinary. The men will parade with their horses. Each man will bring a sword, bridle and comb and any articles of personal baggage so that they can be loaded in the baggage car not later than 7 a.m. on Monday.

BAND CONCERT.

On Sunday afternoon, June 15th, the south side band will give a concert in Tipson park. Main street north. The program will commence at 2 p.m. This is the first band concert to be given on the south side this year and should be enjoyed by a large number of the citizens.

SQUADRON ORDERS.

B Squadron 15th Alberta Dragoons—Officers, non-commissioned officers and men will parade at the armory at 8 p.m. on Saturday, June 14th. It is very necessary that every man will be on parade in order to ascertain how many men will be ready for Calgary camp.

P. E. BOWEN, Lieutenant (Acting Capt.)

PARADE CHANGES.

A change in the hours of the officers at the South Side station came into force this week. Formerly the station was in charge of two men, with one of the constables in charge from 3 to 5 a.m. From now on the shift is divided into three. This month, Sgt. Andrew Irvine has charge from 7 a.m. till 2 p.m. Captain Robinson from 2 to 4 p.m.

It 11 p.m. and Acting Sgt. Norman MacRae from 11 p.m. till 7 a.m.

SUCCESSFUL LABORER.

On Thursday night the Sonsa football club gave a very successful supper to their friends and supporters. It was held in the Conservative club rooms, White Avenue east. A good program was given and every one spent a pleasant evening.

ARCATA LODGE PARADE.

The members of Arcata Lodge, No. 11, A. E. and A. M., are making preparations to hold their annual church parade on Sunday evening, June 22, 1913. They will march in a body, accompanied by visiting brethren from the sister lodges in the city, to the Metropolitan Methodist church, where R. H. Lethbridge will preach to them on Masonry.

CORONER WAS NOT NEEDED.

"Go down to the Wye road," a man has been found lying in the bush, he has been there for two days," were the orders brought from the station to a policeman at midnight at the corner of Main and White. As the officer was a new man on the beat, two citizens volunteered to go along to show him the way.

"If he is dead, don't move him," said the policeman and we will bring the coroner. If he is living and needs a doctor, we are the partying order of officers."

The policeman and the two citizens

marshaled quickly to the source of the phone message. Suddenly a man came out from a house and directed the party to the path leading into the bush.

There he is, whispered the guide. The policeman touched the button and the light was flashed in the face of the prostrate man.

"He breathes," he lives," whispered the citizens who stooped and lifted the hat from the brow.

The man staggered to his feet, but was too drowsy to answer intelligently. "Sure, Mike," answered the man as the cap caught his arm and said "come along."

Back to the station tramped the pair and at each step the man who had been reported dead regained his senses and told how he came to go to sleep in the bush, and thus showed that he was still very much alive, and the coroner was not needed yet for a while.

SOUTH SIDE CHURCHES.

Knex Presbyterian—The assistant pastor will preach both morning and evening.

Metropolitan—On Sabbath next, June 16th, in the Metropolitan church—11 a.m., Rev. C. H. Hostes, M.A., secretary I.D.A., will preach; 3 p.m., special interest in the Bible study hour; 7:30 p.m., Norman P. Priestley.

United Church—Pastor, W. H. Day, church, Honey Boone, W. H. Day, closing his pastorate. At Richmond Park Sabbath school at 2 p.m. Preaching service at 7:30.

WANTS PART OF GRANT.

Lethbridge board of trade has been taking up with W. A. Buchanan, M.P., the possibility of Southern Alberta receiving a portion of the grant passed by the Dominion government recently, for aid to agriculture in this portion of the west. The department has set aside \$200,000 for the purpose of improving the stock in this Dominion. It is proposed to buy with this money thoroughbred and full-blood cattle, horses, sheep and pigs which will be used for breeding purposes only. But in order that the government may distribute them to make sure that they will be of most use, it is required that they be placed at the disposal of live stock associations, which will be responsible for them. The animals will remain the property of the government and may be exchanged at any time for those in another district.

NEW VAUDEVILLE CIRCUIT.

Chain of New Theatres Between Winnipeg and Coast to be Erected.

Winnipeg, June 13—Vancouver will be one of a chain of cities from Winnipeg to the Pacific coast which will form the nucleus of a new and strictly Canadian vaudeville circuit, according to the statement of Alexander Pattinson, head of the Pattinson Theatre.

New houses will be erected in every city at an average cost of three hundred thousand dollars. Mr. Pattinson is at present in Vancouver for the purpose of securing a

RANGE FEUD DENIED.

The rumor that an old time range feud has broken out between the large cattle ranchers and the homesteaders in the new McIntyre lease homestead section, cannot be confirmed, says the Lethbridge Herald. Inspector West of the Mounted Police states that the outrage has never been reported to the police, although the McIntyre ranch is in the district covered by the Lethbridge division. There are 16,000 to 20,000 cattle running in the district south of Mearth.

EVERYBODY LOOK!

Auction Sale of Lots in "Glen Lyon"

Best Investment Property in Greater Vancouver
In Heart of New C.N.R. Development

Sale Here at Reed & Robinson's, 802 Jasper E.
on Sat., June 14th, Starting at 8 o'clock sharp

DON'T MISS IT whatever else you pass up. Get one of the official pamphlets right away, and study the facts so that you will be in a position to bid intelligently. Edmonton will have a chance at the best of the lots in "Glen Lyon," the property, which on the completion of the C. N. R. tunnel will naturally be brought right into Vancouver. Do you appreciate the significance of this? When the C. N. R. tunnel through Mount Royal from Montreal to Model City was started, the future was discounted with a resultant rapid increase of prices. The same will apply in Vancouver, and on the completion of the tunnel, which should be accomplished in less than two years at the rate of progress maintained in Montreal, and the Provincial Guarantee of the C. N. R. Bonds, which hinges on the work being finished in that period, the values should be as good as those that prevail in Grandview, at the present day, namely \$2000.00 per lot, or Fairview, \$3500.00 per lot, where it takes twenty and fifteen minutes respectively to reach, while Glen Lyon will take only twelve minutes from the centre of Vancouver. There is no guess work about this. Now is the time to buy in Glen Lyon, because the prices now are lower than they will ever be again, and there is absolutely no chance of losing unless Vancouver sinks into the sea.

Glen Lyon has now, Water, Electric Light, Telephones, Electric Cars, Sidewalks. Most lots cleared and free from stones, ready for building. All good level lots. No gullies.

Don't Miss this Sale. GLEN LYON is the One Big Opportunity. You'll regret it if you don't bid on the 14th.

Auction sales for other portions of the property will also be held in Calgary, Medicine Hat, Moose Jaw, Regina, Swift Current, Brandon, Portage la Prairie, Winnipeg, Weyburn, Saskatoon, Yorkton, Lacombe and Lethbridge.

Get one of the beautiful Glen Lyon booklets and ask to see the photographs of Glen Lyon, which are now on display at REED & ROBINSON'S, 802 JASPER AVE. E., PHONE 2150.

ALBERTA FARMING PROMISES EXCELLENT RESULTS

ALBERTA'S WEALTH DEPENDS LARGELY ON FARM EXPORTS

Summarized Statement of Value of Crops and Live Stock Produced

CATTLE SHIPMENTS
2,405,890 in 1912

British Columbia is Chief Importer With Manitoba and Ontario Next

Alberta is essentially an agricultural province. The lands of its western half are the best of agricultural land in the world, and the people, in so far as the commercial and industrial development of the country are concerned, rest basically upon the development of these vast agricultural areas. That Alberta is a country of tremendous resources in a story which has been often told—but one cannot become too familiar with the facts for the realization of the immensity of Alberta's problems cannot fail to help in their solution. Alberta has a total area of 162,765,490 acres. This is more than equals the area of Austria-Hungary. It is double the size of Great Britain and Ireland and more than 18,000 square miles larger than New England States. From the northern to the southern point of the province is a distance of about 500 miles, and from the east to the west it varies from 250 to 300 miles.

Itches are given some data showing the extent of Alberta's chief industries:

THE CHILDREN OF THE SOIL

Because of their character to the earth, the men on the farms increase in stature and strength. And for this very reason, a certain proportion of their children are being born with a "farm" strength. They are becoming men with all the power concentrated in their bodies. They have the farmhand's physique, but they are not farmhands. They are the children of the soil.

Now, in almost every ranch house is born one more "farm" child or boy, a sturdy fellow, with a certain amount of "farm" strength. They are becoming men with all the power concentrated in their bodies. They have the farmhand's physique, but they are not farmhands. They are the children of the soil.

Now, in almost every ranch house is born one more "farm" child or boy, a sturdy fellow, with a certain amount of "farm" strength. They are becoming men with all the power concentrated in their bodies. They have the farmhand's physique, but they are not farmhands. They are the children of the soil.

BIG STRIDES MADE BY HOG INDUSTRY

Exports of Hogs Over 6 P. R. From Alberta Increase Twelve-fold in Seven Years

According to H. C. McMillen, general livestock agent of the P. R., the hog raising industry of Alberta has shown a remarkable growth during the last few years, and it is figures continue to increase in the same proportion within a year or so. The number of hogs shipped was 227,480 in 1905, and the number of hogs shipped was 2,405,890 in 1912.

The increase in the number of hogs shipped has been approximately 60 per cent. Farmers, especially in the northern portion of the province, are realizing the fact that there is money in the hog raising industry, provided it is done on a large scale. The cost of feed, etc., in the summer months is high, but the winter months provided the farmer knows how, he can pay in sufficient for all his losses during the winter months. The cost of feed, etc., in the summer months is high, but the winter months provided the farmer knows how, he can pay in sufficient for all his losses during the winter months.

ALBERTA WOOL GROWERS.

In regard to the Underwood wool tariff bill which is now before the U.S. Congress, the Southern Alberta Wool Growers Association says:

"At the time the wool tariff was enacted, the wool growers of Southern Alberta will profit immeasurably if the tariff is reduced to 10 cents per pound. This will allow our 1913 clip. I have not seen any Alberta buyers in the country for some time, but they are sure to come to the bill faster. Our clip this year will be larger and better than any in the past."

WOMAN FARMER HAS RECORD FOR FLAX.

Gleichen Lady Gets 20.03 Bushels of Flax Per Acre: Canadian Average Is 12.60

Mr. Annie E. Williams, of Gleichen, Alberta, has a record for flax yield per acre. She secured 22.32 acres and harvested 1,572 bushels, which is equivalent to 20.03 bushels to the acre. The significance of this will be made really appreciated when it is stated that the average yield per acre in the United States was 9.50 bushels, in Canada 12.65, in Scotland 12.55, in Manitoba 13.20, and in Canada 12.60 bushels per acre.

The variety which was grown was "Perfection," a new kind which has been developed by the Dominion Department of Agriculture, Ottawa, and which ripens from 70 days to a full maturity than ordinary flax.

The record of the growth of this crop is a large proportion of this crop was one foot high and in bloom on June 22nd, and on August 10th, it was in flower. The yield per acre was 1,572 bushels, which is equivalent to 20.03 bushels to the acre.

WHEN YOU MAKE A PUR- CHASE

By Industrial Commissioning Hall.
When you go down town to
purchase what you need for
your own use or for your family,
or for your business, do you start
out with the determination to
purchase an article which is man-
ufactured in your own town?
Do you insist on getting it or are
you satisfied to be put off with
something which is represented
to you as being just as good
which is manufactured elsewhere,
probably in a foreign country?

Did it ever occur to you that
products of our home manufac-
tures might be just as good as, if
not a little better than, those
which are imported—which are
made and sold by people who
have no interest in your town
who do nothing to build up the
town, who care not a rap for the
progress of Edmonton except as
it makes a larger and better mar-
ket for their goods, the money
spent on the production of which
goes to build up some other town
in some other country?

Or are you one of the large
army of consumers who has the
long-headed impression that you
are not getting the best unless it
is "imported"?
Have you ever paused to think
what it means to yourself to help
Edmonton in the front rank of
manufacturing cities of Canada?

Do you realize that there are a
large number of people employed
in manufacturing goods right
here in Edmonton for you and
your neighbors? Do you realize
that the money these people earn
is spent right here—that a share
of what they earn goes to help
you to make your living, or your
fortune?

You believe in Western Canada
as a country and Edmonton as a
city; if you did not you would
not be here. You are making a
better living here than you ever
did before anywhere else. Why
is that?

Is it not because the people
you are living among, with whom
you do business, themselves be-
lieve in Western Canada to the
extent that they are willing to put
all their efforts into building up
the country—and building up
their own fortunes with it?

If you believe in the country, in
its possibilities and its opportunities,
and if all others are helping to
give you your share of these pos-
sibilities and opportunities, why
do you not reciprocate and give
these other people, these man-
ufacturers, and their employees
similar help in their struggle to-
wards the top?

LABOR WORLD DOINGS

The executive committee appointed
by the Trades and Labor Council in the
two afternoon contemporary sessions
of last Saturday. In one was pub-
lished an account of the United
Aids and the amount of beds, free
meals and money that had been
supplied to men out of work. In the
other afternoon contemporary a story
had evidently emanated from some
one connected with the publicly dis-
paragement was published, giving the
rates paid mechanics here, and in-
cidentally stating that there was a
dearth of mechanics in Edmonton.

The recent election of J. H. Smith,
as president of District 18, United
Mine Workers of America, has been
received with general satisfaction
among labor men in Edmonton. Mr.
Smith is well known among the labor
people of Edmonton and is a man well
fitted to hold the position to which he
was recently elected. According to
one well versed in the intricacies of
politics and the mining situation in
general, Mr. Smith's election was
due largely to his attitude during the
recent provincial elections.

J. Martell, international officer of
the C. of C. & J., and J. A. Kenny,
international officer of the Western
Canada, addressed a mass meeting of
carpenters in the Mechanics Hall on
Friday night. They spoke on or-
ganization work in general and in-
dustrial unionism in the building
trades, the latter subject being of
particular interest on account of a
similar movement being put on foot
in local labor circles.

A movement of very great interest,
which has been on foot for some con-
siderable time, is the fusing of the
Amalgamated Carpenters and the
C. B. of C. & J., and from the work of
President Gompers and others at a
recent conference in Cleveland the
executive and members of the Amal-
gamated were more in favor of the
movement than when the subject was
brought up a year ago at a con-
ference in London, England.

Under the new plan of amalgama-
tion that feature which will undoubt-
edly be an increase in wages and shorter
hours. They are at present receiving
from 10 to 15 cents per hour and a
ten-hour day. They want 25 to 30
cents per hour and an eight-hour day.

Longshoremen at Chatham, N.H.,
are still holding out for 14 cents per
hour. Victor E. Johnson, Dominion
fair wage officer has been sent from
Ottawa to try and arrange a better
settlement. These men are all employed
in loading lumber.

Striking cabinet makers in Toronto
report additional firms signing up to
new eight and forty men have been
removed from the strike roll in this
city, being 36, the strikers over-
saw new members have been
initiated, which is a healthy sign.
A considerable number of the old mem-
bers have accepted work in outside
places.

Victoria seems to take kindly to
the idea of a strike. Regina experienced
Among those selected to officiate are
A. R. Wells, general organizer of the
C. B. of C. & J., and J. A. Kenny,
general organizer of the Brotherhood
of Carpenters and Joiners and vice-presi-
dent of the C. B. of C. & J., and the
latest addition is Ben Simmonds,
general organizer of the local branch of the
Amalgamated Carpenters.

A most peculiar contradiction in the
law was noted at a meeting of the
N. Y. C. Federation of Labor and
the latest addition is Ben Simmonds,
general organizer of the local branch of the
Amalgamated Carpenters.

A few years ago there was not a
single labor organization on the island
of Newfoundland. The following un-
ions are now established in the city
of St. John's alone: Longshoremen,
carpenters, cooper, tailors, teamsters,
farmers, bricklayers and masons, cab-
men, seamstresses, shoe workers, leather
workers, barbers, printers, bakers,
cooks, stewards, farmers and the
plumbers and steamfitters have form-
ed an organization and applied for a
charter.

A "fair wages" schedule has just
been adopted by the Ottawa city
authorities, which will govern con-
tracts on city work. Under an eight-
hour day schedule and a four o'clock
lunch on Saturdays, are classed the
following: Stone cutters, 45¢ per hour;
bricklayers, 42¢ per hour;
dormansmen, 32¢ per hour. The
following per hour schedule is for a
nine-hour day (five hours on Satur-
days): Carpenters 32¢; carpenters
helpers 25¢; joiners 25¢; stair build-
ers 25¢; plasterers 45¢; painters and
glaziers 25¢; paper hangers 25¢;
sheet metal workers 25¢; sheet metal
improvers 25¢; plasterers and steam
fitters 42¢; electrical workers 25¢;
plasterers' helpers 25¢; builders
helpers 25¢; ordinary laborers 24¢.

An eight-hour day for colliery
studing employees throughout Great
Britain from July 1, provided a
regulation made by the home secre-
tary under the coal mines act.

The Chancellor of the Exchequer
has stated that whereas 4,000 prop-
erty tax last year, owing to a
reduction in the value of property
amounting to 151,000,000 pounds, over
32,000 died income tax payers, no
property at all.

Mr. G. H. Roberts, in the name of
the labor party, has arranged to
introduce legislation on an early date
dealing with the wages and hours of
agricultural laborers. Mr. Roberts
comes from the course of an agricul-
tural district and has studied rural
problems at first hand.

Reports from various areas in the
United States indicate that the
elimination of the non-unionist is
proceeding apace. Out of 50,000 men
in the United States who were non-unionist
or defectors, two or three months
ago only about 2,000 were left, the
rest being in the Aberdeen and
Alameda valleys.

In the Hibernia valley some 2,000
men have joined the Federation in
the last few weeks and apparently
every working miner in the valley
has now taken advantage of the offer
among these are a number who had
temporarily formed themselves into a
separately organized union, but
demonstration, addressed by Messrs.
J. H. Cline, M.P., and T. Richards,
M.P., was a remarkable success, at-
tended by many thousands.

Somewhat more slowly a "similar
revival is being carried" in the
Hibernia valley, where nearly all
the colliers are now again working,
with the colliers under the Federa-
tion.

The general wage rate of the Welsh
miners has been advanced 2 1/2 per
cent, thus reaching the maximum
under the present award.

Bishop Roger Honored.
London, June 12.—The University
of Oxford will confer the degree of
Doctor of Divinity on Bishop Roger of
Bristol.

A most peculiar contradiction in the
law was noted at a meeting of the
N. Y. C. Federation of Labor and
the latest addition is Ben Simmonds,
general organizer of the local branch of the
Amalgamated Carpenters.

A few years ago there was not a
single labor organization on the island
of Newfoundland. The following un-
ions are now established in the city
of St. John's alone: Longshoremen,
carpenters, cooper, tailors, teamsters,
farmers, bricklayers and masons, cab-
